

A list of academic publications related to AlpEnergy topic are available here:

- Slobodan Luković, Igor Kaitović, Marcello Mura, Umberto Bondi, Filip Kulić, and D. Popović

"Functional model of Virtual Power Plant (VPP)"

In Proceedings of the 2010 CIGRE (International Council on Large Electric Systems) Session, Paris, France, July 2010.

- Slobodan Luković, Igor Kaitović, and Umberto Bondi

"Adopting system engineering methodology to Virtual Power Systems design flow"

In CPSWEEK/GREEMBED 2010: Proceedings of the First Workshop on Green and Smart Embedded System Technology: Infrastructures, Methods and Tools, Stockholm, Sweden, April 2010.

- Slobodan Luković, Igor Kaitović, Marcello Mura, and Umberto Bondi

"Virtual Power Plant as a bridge between Distributed Energy Resources and Smart Grid"

In Proceedings of 43th Hawaii International Conference on System Sciences (HICSS'43), Hawaii, USA, January 2010.

- Slobodan Luković, Velimir Čongradac, and Filip Kulić

"A system level model of possible integration of Building Management System in SmartGrid"

In Complexity in Engineering (COMPENG 2010), Rome, Italy, February 2010.

- Slobodan Luković, Igor Kaitović, Marcello Mura, and Umberto Bondi

"Functional requirements of embedded systems for monitoring and control structure of Virtual Power Plants "

In Proceedings of the 2009 IEEE Workshop on Environmental, Energy, and Structural Monitoring Systems, Crema, Italy, September 2009.

- S. Vukmirovic, S. Lukovic, A. Erdeljan, and F. Kulic

"Software architecture for Smart Metering systems with Virtual Power Plant"

In proceedings of 15th IEEE Mediterranean Electrotechnical Conference (MELECON2010), Valletta, Malta, April 26-28 2010.
